

BYD BATTERY-MAX LITE LIMITED WARRANTY

This Limited Warranty applies to BYD battery system product Battery-Max Lite (Models: LITE 30, LITE 37.5, LITE 45, LITE 52.5, LITE 60, LITE 67.5, LITE 75, LITE 82.5, LITE 90) ("Product") purchased on or after Aug. 1st, 2024.

BYD Smart Device Hungary Kft. ("**BYD**") hereby provides BYD Battery-Max Lite Limited Warranty ("**Limited Warranty**") to "**Original Buyer**" (the entity who purchases the Product for their use and puts the Product into operation for the first time).

1. LIMITED WARRANTY

1.1. Warranty Start Date

Generally, Warranty Start Date is the first day after six (6) months from the Production Date of the Product (*Refer to the Appendix of this Limited Warranty to find out the Production Date*). But if Original Buyer can provide the written documents (such as receiving note) to prove the time when Product is delivered to the installation site where the Product is installed and operated for the first time ("**Delivery Date**"), Original Buyer can choose the first day after thirty (30) days from the above Delivery Date as Warranty Start Date.

1.2. Limited Product Warranty

The Limited Product Warranty will take effect automatically and it is strongly recommended to connect the Battery-Max Lite to the internet to provide remote access for BYD service team through the **Be Connect Monitoring Platform**.

BYD warrants that the Product will be free from defects in material or workmanship that, when given normal, proper and intended usage (i) for a period of two (2) years for the fans in the battery modules. (ii) for a period of three (3) years for the air-conditioning unit on the products. (iii) for a period of ten (10) years for the other components of the Product from Warranty Start Date.

Material defects shall not include tear and wear and any deterioration in appearance of the Product (including but not limited to any scratches, stains, mechanical wear, rust or mold) as long as they do not have any impairment of function.

1.3. Limited Performance Warranty

BYD warrants that the product will either (i) remain at seventy (70) percent of its initial usable energy after (10) years of use or (ii) reach the Minimum Throughput Energy, whichever comes first, on the condition that the Product is operated in a normal manner that adheres to the manual guidelines provided by BYD.

The initial usable energy and Minimum Throughput Energy of Battery-Max Lite for each Product Model are set out in the table below.

| Product Model | Usable Energy (kWh) | Minimum Throughput Energy (MWh) |
|---------------|---------------------|---------------------------------|
| LITE 30 | 30 | 73.88 |
| LITE 37.5 | 37.5 | 92.35 |
| LITE 45 | 45 | 110.82 |
| LITE 52.5 | 52.5 | 129.29 |
| LITE 60 | 60 | 147.76 |
| LITE 67.5 | 67.5 | 166.23 |
| LITE 75 | 75 | 184.70 |
| LITE 82.5 | 82.5 | 203.17 |
| LITE 90 | 90 | 221.64 |

Note:

The value of Minimum Throughput Energy are recorded in the PDU, which can be shared with Original Buyer for warranty claims upon request.

If the air-conditioning unit stops working under any circumstances, the Battery-Max Lite system will intrinsically continue operating and protect itself from working at extreme temperatures mentioned in Clause b), Section 2.3.

To ensure the validity of the warranty, the DC current on battery side must not exceed the maximal allowable current of the system in any moment.

For this Limited Warranty, the remaining usable energy should be measured and calculated by the following method, while the operating temperature is between 25.0°C and 28.0°C.

- (i) Discharge the battery with constant current until the battery reaches End of Discharge Voltage (EODV) or its self-protective voltage.
- (ii) Wait for 10mins.
- (iii) Charge the battery with constant current and constant charge voltage to its full capacity.
- (iv) Wait for 10mins.
- (v) Discharge the battery with constant current until it reaches EODV or its self-protective voltage. Record the current, voltage and time.
- (vi) The remaining Usable Energy is the integral of discharge time and current multiplied by voltage.

Test value list:

| Product Type | End of discharge voltage / V | Constant charge voltage / V | Constant current / A |
|--------------|------------------------------|-----------------------------|----------------------|
| LITE 30 | 259 | 355 | 20 |

$$\text{Refund} = (\text{maximum claim amount}^* / \text{Warranty Period}^{**}) \times (\text{Warranty Period}^{**} - \text{number of months since Warranty Start Date}).$$

^{*}The maximum claim amount is the market value of the Product (or an equivalent product) determined by BYD if it were purchased new and free of defects.

^{**}Warranty Period depends on whether the product is connected to the Be Connect Monitoring Platform or the Product has purchased the extended warranty.
